## ST GEORGE'S COLLEGE WEYBRIDGE

# 11+ ENTRANCE EXAMINATION 

## PRACTICE PAPER

## MATHEMATICS

## Read the following instructions carefully

- There are 25 questions. You should attempt all of them.
- Write neatly and show all your working. It may be possible to give you marks if your working makes sense, even if your final answer is wrong.
- Put your answer in the space provided. If you think you have finished check that you have answered all the questions.
- Work carefully and steadily. Move on to another question if you find yourself spending too long on a question.
- You may not use a calculator or any other mathematical equipment.

1. Complete the following
a) $1 \times 1+6=$ $\qquad$
b) $0.6 \times 4=$ $\qquad$
c) $84 \div 1000=$ $\qquad$
2. Circle the number below which is closest to 2 :

| 1.9 | 1.998 | 2.08 | 1.99 |
| :--- | :--- | :--- | :--- |

3. Kate thinks of a number. She multiplies it by 3, takes away 2 and arrives at answer of 25 . What was the number she originally thought of?

Answer: ............................
4. Write the following numbers as a fraction in their simplest form:
a) $0.4=\ldots \ldots \ldots \ldots \ldots \ldots \ldots$
b) $\quad 0.82=$.
5. Calculate $316 \times 49$

Answer: ............................
6.

Write down the coordinates of the points $\mathrm{A}, \mathrm{B}$ and C
A............................
B............................
C............................
7. Calculate the area of the triangle below, giving the correct units in your answer:

Answer:
8. The price of a coat is $£ 64$. In the sale it is reduced by $20 \%$. How much is saved in the sale?

Answer: $\qquad$
9. Mint Chocolates cost $£ 1.80$ for 100 grams. Strawberry chocolates cost $£ 1.42$ for 100 grams. Peter buys 200 grams of mint chocolate and 150 grams of strawberry chocolate. How much does he pay altogether?

Answer: ...........................
10. Complete the table below, by stating if the statement is True or False

| Statement | True or False ? |
| :---: | :---: |
| $100>5$ |  |
| $-6<10$ |  |
| $-12>-3$ |  |
| $\frac{2}{3}<\frac{5}{9}$ |  |

11. Write a number which is bigger than 4.6 but smaller than $4 \frac{2}{3}$

## Answer: .........................

12. Complete the boxes below to make the sum correct:

| 3 |  | 2 |
| :--- | :--- | :--- | | 4 | 5 |  |
| :--- | :--- | :--- |$=$|  | 3 | 5 |
| :--- | :--- | :--- |

13. The shape below is made from 4 identical squares

a) Calculate the perimeter of the shape

Answer: .........................
b) Find the area of the shape

Answer:
14. Put brackets in the calculation below to make it correct:

$$
4+16 \div 4+4=6
$$

15. Complete the sentences below.
a) The number is half way between 10 and 14
b) The number $\square$ is half way between -4 and 12
c) The number 7 is half way between and 28
16. If $1234 \times 56=69104$, what is?
a) $69104 \div 56$ $\qquad$
b) $1.234 \times 560$ $\qquad$
c) $2468 \times 2.8$ $\qquad$
17. Five cartons of Awesome Apple Juice are bought for $£ 9.50$
a) How much would 3 cartons of Awesome Apple Juice cost?

Answer: ...............................
b) How many cartons can you buy with $£ 28.50$ ?
$\qquad$
18. Calculate $864 \div 16$
$\qquad$
19. The shape shown below is a parallelogram with vertices shown.

Write down the coordinates of P
P...........................
20. Two different triangles have similar properties. They are both isosceles with a perimeter of 12 cm . They both have a side of length 5 cm

What are the lengths of the other two sides for each triangle?

Triangle 1
and

Triangle 2 and
21. The rectangle below is twice as long as it is wide. It's perimeter is 27 cm .

What is the area of the rectangle?

Answer: $\qquad$

22 a) Three quarters of a number is 48 . What is the number?

## Answer: ............................

b) Write in the missing number below

$$
50 \div \square=2.5
$$

23. The line below shows the first 5 square numbers

$$
\begin{array}{lllll}
1 & 4 & 9 & 16 & 25
\end{array}
$$

The sum of the first 20 square numbers is 2870 . Work out the sum of the first 21 square numbers?
$\qquad$
Answer:
24.

| Powers of 3 | Value |
| :---: | :---: |
| $3^{1}$ | 3 |
| $3^{2}$ | 9 |
| $3^{3}$ | 27 |
| $3^{4}$ | 81 |
| $3^{5}$ | 243 |
| $3^{6}$ | 729 |
| $3^{7}$ | 2187 |
| $3^{8}$ | 6561 |

Use the above table to work out the following
a) $3^{3} \times 3^{4}=$
b) $3^{6} \times 9=$
c) $9^{4} \div 3=$
25. In music a demisemiquaver is half of a half of a half of a crotchet, and there are four crotchets in a semibreve. How many demisemiquavers are there in a semibreve?
You must show your workings clearly, a guess will result in no marks.

## Answer:

## END OF TEST

Now check your work carefully.
